DOOR AND WINDOW MAINTENANCE:

- Before using the sauna, we recommend treating the wooden surfaces of the door with a treatment product meant for protecting wooden surfaces in a sauna.
- Regularly check the condition of the hinges and lock fastenings. If necessary, tighten the hinge bolts or adjust the lock.
- Avoid water constantly running on the door frame and excessive moisture.
- Clean the door glass regularly using a glass cleaner. Avoid abrasive cleaning products that could damage the glass surface.

ADDITIONAL INFORMATION:

- All Thermory standard doors come with bronze hinges, a bronze roller lock and are right-handed.
- Please contact our sales department for additional information about our prices and terms.
